

Mohamed Dorgham

FULL STACK DEVELOPER

 **P:** +971568847409  **E:** mohammed.dorgham25@gmail.com  **A:** Dubai, United Arab Emirates

PROFILE

As a full stack developer with 2 years of experience, I have a proven track record of delivering high-quality, scalable web applications. I possess a strong understanding of various technologies, including JavaScript, ReactJs, Nodej, ExpressJs, and MongoDB. I am skilled in creating responsive design, cross-browser compatibility, and implementing security best practices. Additionally, I am a quick learner, highly motivated and I always keep up to date with the latest industry trends and technologies.

WORK EXPERIENCE

● Full Stack Engineer At Adecco, Dubai

May 2022 - December 2022

My mission in the e-commerce team was to build and maintain the company's online store, which included both the front-end and back-end of the site. I was responsible for the development of the website's user interface using ReactJs and JavaScript, as well as the implementation of server-side logic using Node.js.

I also worked closely with the design team to ensure that the site was visually appealing and user-friendly. One of my major projects was the development of a search feature that allowed customers to easily find products on the site.
